

Lord Sananda Speaks Holy Scripture

a Book by Narkael and Lord Sananda

Foreword by Angel Razakiel

One night I prayed and Jesus appeared. He said his real name is Lord Sananda which means Heart and that he comes to those who pray. We stayed up all night as he told me the history of the Holy Scripture, tracing the text from its start in Ethiopia as a record of Kings, through Sumer and Babylon and to the Jews and the arrival of Jesoah.

Said Sananda:

So. This is Lord Sananda. The Christ. I am pleased to meet, anyone who reads these pages. These pages were not written by the old Fathers.

Lord Sananda Speaks
Holy Scripture

written by Narkael and Lord Sananda
foreword by Angel Razakiel

Paperback Book 236 pages
Also available in Kindle eBook

More Jesoah Quotes! 

Said by Lord Sananda Jesoah in the Book:

I am the Light, and the beginning. The Alpha and the Omega, it should say in the beginning. So! Let's start with that! I am the Light.

If you read the Bible, it will say, that I will come to those who need me.

I came to you because you prayed for me.

They would hold you as my scripture, and others would not. And then they would fight each other to the death, over their inherent beliefs.

The Great Apostles, were many. There were not only thirteen.

We are guarding, and safekeeping the humanity.

Many want to hear me on their own. They do not want to read these pages from you. That is why we stay away.

The stories of Garden of Eden, were Babylonian design.

The Jews were also there. But those scriptures were added on later.

They had many Kings. And they wanted to keep a written record of them. That is how the holy scripture began,

Scripture was considered worth more than gold, so of course they fought over it. Fought over inclusion into the script.

The stories of my Father the God were all added later.

So, the Nile was called the fertile valley. And it extended into Sumeria!

My Father, the King, was never mentioned before, not until now. It was all added in there later.

Because it looked as if the whole earth had become submerged.

So, when the entire Nile had flooded, they had no place else to go, besides north, or west.

Yes, and we are building the Bible. One piece at a time! Like one footstep, one at a time!

They were next later passed on to the Babylonians. The Babylonians had great Kings! And they thought that they were very important!

The Babylons had the Hanging Gardens. So, that is where the Garden of Eden comes into play!

Most of those were accurate historical record! And the story about me and the fish would not come until later.

Yes, the Romans added it later. To make fun of their former enemy.

The Jesuits were priests.

Because you have recorded more, than history has all together. So you can be proud of that with me.

No, like we said, the Sumerians were mostly interested in their astronomy.

Merchants, and spice runners. They would take it to many places. The Arabs take it, next.

The Arabs took great care of it. They treated all of their old scriptures really well.

Next we talk about the man who went up to the mountain to speak to God! And of all the riches that he was given! And when he returned back down the mountain to the village, all of history would change. And that man, of course, was Ahab.

So, there was once a man, who went to the mountain. He wanted to know why God would make it rain, or make it thunder, and why the clouds were there, and you see no woman could have ever told him why there was the sun and sky, so he had to ask for a man, and that man was god.

And God told him, why there were rains. Why women bore the young, and why seeds and grasses grow. He thought he had all the answers.

Yes, Ahab was an important man. And you will read about him in the Bible, if you dare to have a look. He is written about there. And you will see, that he was a great man.

No, he just had a vision. And so he started the retelling to his sons. And his sons would retell the stories after him. So you see, the importance of the Father to the Son, and Ahab is the one to have started it.

The Jewish men were always with their fathers. And that has still been very important to them. They are still holding on to the traditions.

Lord Sananda is The Christ!

Moses was the son of all Jews. The son of Abel.

I am sorry that the Bible has had so much retelling.

And do not forget about the Ethiopians, they who started it all.

Note, that the Nubian princess was never recorded in history. She was only forgotten.

The foretelling of fathers to sons, was later added and included into there. Because they couldn't keep track of all the memories, of stories told by the fathers. So they thought it clever to add them there, don't you think!

And what better or more important place to store it in, than in our historical document? And so, the scripture was finally - through the Jews - being transformed into a *biblical* document, a document that could carry religious meaning and significance. And we owe that all to the Jews. So you see, what is fundamentally a Jewish religion of storytelling, of passing on the great fables from father to son, became what is known as Christianity, and of that I would become a part.

Those are the people we need to remember, and it is all thanks to the Jews, that we have still got this fantastic document.

And God was called as the shepherd, as they too were shepherds for their sheep.

Many more fathers besides just him were adding to those stories, that became known as the faith of the Jewish kingdom.

Eden means "Edena". It was a city far in the east. It was a city where women were known to be beautiful, in the far city of Edena.

We are in five hundred years, before I was born. And then the madness starts.

No, they had both. Both the original versions and the newer additioned versions were shown. So the Romans had both. And they came to enslave their people. So, a few were sold for a few more than what a donkey would sell for. Those were some pretty harsh times. And many lives were lost too. So it was not easy times for being a Jew. And that is where I step in. I was sent here, by my Heavenly Father, and The Holy Ghost. I was sent here, to be with the Jews, in their most troubling times.

The Romans did, yes. And they did so in the Holy name of my Father! Wait till you find out, it gets worse! They have spilled so much blood. The Romans, the Catholics, and so much of this so called "Holy War". It is despicable, and it makes me sick, if I still had a body to fight with.

And that is where I stepped in. I was sent here to be a Catholic, by my Holy Father and the Holy Ghost.

The Jews prayed a lot to their God. And the God that was my Kingdom. And Heaven come to those who pray.

I was lent to lead. I was supposed to lead them to safety.

I was not here to make anything new besides Judaism. It was just thought of that way.

I was not even afraid. I was not Lord Sananda here. I became known as "Jesus".

I was brought before the Roman King and Emperor. And called Judas.

No, I was sent there, by my Father. The Romeo-Judan Priest, they called me. The Roman Priest who is not a Brother.

We had no televisions to watch it with, we had to see it with our own eyes!

Please, that is no longer my name! I have become Lord Sananda! And Kuthumi was my name, once.

Jesoah, was just a messenger.

The important part of that story, is that people prayed. That is why we came there. Nowhere else had people prayed like there. The women prayed too, if you would like to know.

We have written on this holy scripture before, and now we have done so again.

The Romans believed not in Holy Ghosts, yet that is where I came from. I came from the pattern of God, from the Holy,

The Jesoah, was not a priest, initially. But I was long regarded as a rebel. That was also not included into the scripture, which was supposed to be not only a holy scripture but an accurate historical record.

We were also seeing, their fish taken away. Fishermen were given no salary to give their feed to the Romans, and not to their sons. So fishing villages soon perished, and men turned to making bread instead. And many of them fled into the hills, where they hoped to make wine, and olives.

The Romans had a knack for killing off sons. They thought that was the most perfect form of punishment, for an astray Jew. So they did that a lot. And that is when we had to step in, to intervene.

And they cried, and they wept, and they sought for solitude from their script. They turned for the Heavens, and that is when we were there. So we had to intervene!

The importance of this great scripture cannot be overstated. And so you will see, why so many have chosen faith over it when they have been in hunger.

I was just a man, and a priest. A Jesuit monk was formed.

I was a rebel, first and foremost!

All of the Great Ones were rebels.

The Jewish men were not given any bread to eat, so I had to retaliate!

The story of the Jews is not mine. That is why I have not told you more about it. The Jews were very central to this story, as they were the ones under siege. They were the ones we had come here to help.

Because they could write their own versions. That is why the Roman Catholic religion was formed. It was to take what was greatest of all the old Kingdoms, and retell it in their own words. To make slavery more abundant, to enslave every human race, through words, and scripture, alone.

The Jews had their own Kings, they did not want Jesus as their King.

And now, my dear, you are writing yet another new book! So we will see how the world takes in this one, or if they might not.

Yes, it was written by the Roman Catholics. And the Jews were no longer interested in it, because they already had their old storytelling by their fathers.

So, it was not at first thought of as holy, until the miracles were added there. That is when "mystical" things begun to happen! People begun seeing ghosts! And speaking in tongues! And everything, good or bad, was being attributed to the holy book. The gods were all abound, and now people were becoming good Christians. The good deed was sought after as being the right thing to do. The Holy Catholics went on Crusades after that. They were the first ones to begin on that journey, and they sought to - again using their military power - enslave in Catholicism anyone who would not join them on that journey.

And that is how the Roman Catholics were born. It was born in priesthood, and not in the storytelling of fathers and sons, and that is one of the greatest most important differences, of the old holy book and the next.

The Catholics, were not Jesuit priests, but they tried to be. The true original Jesuits were still left on the mountains, abandoned, by hope, as new wars set in.

From the Heavenly Kingdoms, as that is where I was made.

It does not tell of my Easter, but the holy women of Rome wanted to. The Easter became very significant, because of the women there. And the blood became important too, because so much blood had been spilt, they wanted to see that the blood of their Jesus was still with them. And that is how it all originated.

The Romans had bathhouses, and for many centuries, remnants of Jewish women worked those.

The stories about the devil were added there next.

It was a creature, that spoke to them. An oracle of sorts, if you will. And it told all the man in its kingdom that it could be greater than god.

Many women baked bread, when it was Easter time, and they thought of me.

The Jesuit priests wrote it down. And then it was taken down there to the monasteries. And the women got to read it too!

The monks started illustrating the fables.

Yes, the Gregorian monks did that. And they wrote in latin. Many also wrote it in Greek. Greek was still a significant and much important language.

And the women! Oh they loved the new laws, given to them from a bible, and not through bloody reign, terror or war! So they were happy about that, to see that the blood of their sons, could now be in the blood of their Christ, the Savior who bled on the cross. So they found solitude in that, and they placed flowers by my feet, or in my hair.

They didn't think of it as holy, at this point! It was just a written historic record, and like we said, they thought nothing of the Judaism that was written there with great importance. As, they were not Jews, nor had they ever been. They did not want the Jewish writing in there, nor did the Arabs want any of it. So as you can see, the Jews would become outcasts, caught in the middle of other populations, living in a world that was quickly becoming inhabited by other ideas.

Do you know who at first called me their King? It was the Jesuits, that rewrote the Bible.

They wanted to take down the king, and they called Jesuits the new priests. They wanted no glory to those who reign with rule.

They wanted no more rule. And so they thought of me as their King.

It didn't spread. It was forced, and slayn in there. The non-Christians were declared as the enemies. And great plague and pestilence was seen as their fault, because they would not repent before Christ.

The Holy Ghost, is a spiritual being, that is very powerful. Omnipotent, I should say.

Hell does not exist, with me here. Tell that to the children. And tell that to the young ones too, who still learn and study!

The Christian scripture has been taken much out of context. Many have wanted to interpret it, and to own it.

The Solomon's Key was very important here. And that is what you have been given. Anyone who receives these words has been given the Solomon's Key. And now, with that, you are nobled.

Narkael was not particularly a Christian when Jesus appeared to her after a prayer she made to simply tell God that she loved him. She questions Lord Sananda Jesoah in this book and remains suspicious if it really is him but is eventually wrapped up in the captivating history he tells of the holy scripture which became the Bible, told here in the words of Jesus Himself!
